¹⁾ CQP = Corporate Quality Procedure

Description

Sika® Handclean is a unique waterless hand-cleaning system combining both a high quality liquid hand cleaner formula and heavy-duty, non-scratching, abrasive hand-cleaning towel.

Sika® Handclean is manufactured in accordance with ISO 9001 quality assurance system.

Areas of Application

Apart from normal dirt and soils, Sika® Handclean will remove heavy-grease, lubricants, adhesives, oils, tar, inks, wax and many other difficult to remove soils such as coal dust, graphite and grass stains etc.

Method of Application

Use Sika® Handclean by scrubbing your hands. Immediately after use, reseal container tightly.

When not using Sika® Handclean for hand cleaning (e.g. cleaning machinery or equipment) or when prolonged skin contact with product may be involved, then use of protective gloves is advised.

Value Bases

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

Health and Safety Information

For information and advice regarding transportation, handling, storage and disposal of chemical products, users shall refer to the actual Material Safety Data Sheets containing physical, ecological, toxicological and other safety-related data.

Legal

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users should always refer to the most recent issue of the Australian version of the Technical Data Sheet for the product concerned, copies of which will be supplied on request.
