

Application Field: Industrial Flooring

Market Field: Health, Education and Leisure Industry

BREW YOUR OWN!

Requirement: This building had to be refurbished according to health standards in the food industry. As a result, an epoxy floor system that was easy to clean was required.

Solution: The floor was acid etched and water blasted followed by two coats of Sikafloor-2430HS.

Product Used:

Sikafloor-2430 HS: high epoxy coating for concrete floors.
