

Application Field: Concrete Repair

Market Field: Reinforced Concrete Structures

## COMMERCE BUILDING

**Requirement:** The concrete facades and corbels needed urgent repairs to ensure the safety of occupants and pedestrians.

**Solution:** SikaGrout 100 was poured into moulds and formwork to form large repair sections. For detailed sections, Sika MonoTop-615HB was used. All mesh placed was done using Sika Anchorfix-1.

### Product Used:

SikaGrout 100: shrinkage compensated high strength cementitious Class C grout.

Sika MonoTop-610: bonding mortar and corrosion protection for reinforcement.

Sika MonoTop-615HB: high build repair mortar.

Sika Anchorfix-1: fast curing anchoring adhesive.
