

Application Field: Concrete Repair and Protection

Market Field: Reinforced Concrete Structures

## FRANSISCAN FRIARY (WAVERLY CHURCH)

**Requirement:** The external corbel (as shown) had severe cracking and spalling with roof parapit walls splitting. Urgent repair was required for public safety and to restore the structure.

**Solution:** Sika MonoTop-615HB and Sikadur-52 was used to repair cracks and internal void filling. Other cracks and splits were fixed with Sika Anchorfix-1.

### Product Used:

Sika MonoTop-615HB: high build repair mortar.

Sikadur-52: low viscosity epoxy resin.

Sika Anchorfix-1: fast curing anchoring adhesive.
