

Application Field: Industrial Flooring

Market Field: Manufacturing Industry

MERCEDES BENZ SERVICE CENTRE

Requirement: The workshop and service centre required a heavy duty, durable slip resistant flooring to ensure smooth operations and service of high quality cars.

Solution: Sikafloor-156 Primer and T55J Parquetry floor were applied to the customer waiting area. While Sikafloor-Curehard 24 was applied over the car park area to produce an improved, abrasion resistant and dust-free finishes. Sikafloor-261 was then applied as a self-levelling non-slip floor system throughout the car workshop section.

Product Used:

Sikafloor-261 NS: solvent free, coloured, universal epoxy resin based flooring system.

Sikafloor-156 Primer: low viscosity, solvent free epoxy primer.

Sikafloor-Curehard 24: dustproofing liquid surface hardener.
