

Application Field: Sealing and Bonding

Market Field: Reinforced Concrete Structures

NDC TUNNELS

Requirement: Telstra required a high performing and durable adhesive mortar in the communication tunnel network under Sydney due to damaged brickwork.

Solution: Sikadur-52 provided the epoxy resin grout that was injected into the cracks in the brickwork to support the communication tunnel network under Sydney.

Product Used:

Sikadur-31: thixotropic epoxy resin adhesive mortar.

Sikadur-52: low viscosity epoxy resin.
