

Application Field: Industrial Flooring

Market Field: Manufacturing Industry

P.R. POLYMERS

Requirement: The old concrete surface in the lab and warehouse was badly chipped and required a hard concrete surface to improve the mechanical and abrasion resistance.

Solution: The concrete was water blasted and 5mm of the cementitious based underlay, Sikafloor Level 25, was applied. This was followed by the Sikafloor 261T system.

Product Used:

Sikafloor-Level 25: Cementitious self smoothing sub-floor screed

Sikafloor-261T: Solvent free, coloured, high build epoxy coating

Project Details

Date: July 2004	Location: Somer Park, Queensland
Specifier: The client	Contractor: Pratt Applicators
Sika Representative: Stoward Bolton
