

Application Field: Grouts and Anchors

Market Field: Transport and Infrastructure

PERTH URBAN RAIL DEVELOPMENT- NOWERGUP DEPOT

Requirement: Located 35km north of Perth CBD is the depot that will service, maintain, clean and store up to 35 rail car sets. Durable and reliable grouts were required for this depot.

Solution: Sikadur-42 was used for grouting under rail baseplates in the external car wash building and again under rail baseplates adjacent to the internal car cleaning platform.

Product Used:

Sikadur-42: high strength pourable epoxy resin grout.
