

Application Field: Sealing and Bonding

Market Field: Water Industry

PICNIC POINT SUBSTATION

Requirement: The storage tank at Picnic Point Substation required urgent repairs due to crack and leaks.

Solution: Sikaflex and SikaSwell products were used to seal the bund and retaining structures.

Product Used:

Sikaflex-Tank: high performance, chemical resistant polyurethane joint sealant.

SikaSwell S-2: extrudible swelling water stops for construction joints.

SikaSwell Profile: swellable water stop.
