

Application Field: Industrial Flooring

Market Field: Hospitality Industry

SYDNEY BAR AND GRILL

Requirement: The restaurant needed an epoxy floor system that was durable enough to handle excessive foot traffic and food waste in a busy environment.

Solution: Sikafloor-261T was placed over a primed concrete surface to deliver a tough, durable finish in the food servery and kitchen areas.

Product Used:

Sikafloor-156: a low odour epoxy primer.

Sikafloor-261T: a high build epoxy roll on coating.

Advantages:

- Excellent mechanical strength
- Good chemical resistance
- Easy to apply
- Can be tinted to appropriate colour
