

Application Field: Industrial Flooring

Market Field: Manufacturing Industry

VISCOUNT PLASTICS

Requirement: The Viscount plastics factory with wet floor environments required a durable and abrasion resistant floor due to heavy forklift traffic. The client requested a non-slip capability but without broadcasting, so as to preserve cleanability.

Solution: In order to produce the non-slip capability without broadcasting, Sikafloor-261T was applied in an innovative way. An additional 2 litres of Sikadur 513 thixotrope was mixed into each 10kg kit of Sikafloor-261T. The completed texture has good non-slip capabilities, looks great and remains easy to clean.

Product Used:

Sikafloor-261T: Solvent Free, coloured, high build epoxy coating

Project Details

Date: June 2004	Location: Perth, Western Australia
Specifier: The Client	Contractor: Antiskid Industries
Sika Representative: Hugh McCook
